Playing Against the TV: Remember, the best distance to be from the TV with your Captain Power vehicle when you play against these tapes is about 5 feet. More than one person can play against the TV at one time, too!

INTRODUCTION

Welcome to the future! This rules booklet explains how you can get the most action & excitement from the Captain Power interactive videotapes. These tapes are special—each provides nearly 15 minutes of interactive battle action for you to play against with your Captain Power TV-interactive vehicle.

What You're Seeing: You see the action on these tapes from the point of view of the cockpit of a PowerJet XT-7™ fighter. You're the pilot!

POWER ON!

The opening sequence of each tape features a "Power On!" scene—Captain Power charging up for action! This scene will activate your Power On™ energizer.

BATTLE "GAMES"

Each tape includes several interactive battle "games" filled with enemy targets for you to shoot at & score points, as well as laserblasts that will take points away from your vehicle.

Some games are short and some are long. You can play through the whole tape at once, or you can play each game separately. It all depends on how many PowerPoints your vehicle has!

SCORING

Your vehicle always starts with 5 PowerPoints. A computer message onscreen (such as "MISSION

SIMULATION: SKY MINES™) tells you when to start playing a game. Starting messages for each game are listed on pages 6–11.

Each game ends with the message, “CHECK YOUR POWERPOINTS LEVEL.” At that time, you can stop the tape and record your PowerPoints on the Scoring Grid (right), or you can keep on playing.

Max Score: Your vehicle keeps score only up to 25 points, but you can keep count yourself beyond that point when you hear the “Victory” sound. The Power Base™ playset keeps score up to 99 points.

USING THE SCORING GRID

After each game, record your score on the Scoring Grid. A space for each game on the first three tapes (Skill Levels 1, 2, and 3) is included.

After playing through the whole tape, check your total score against the Pilot Ranking (page 5) to see where you stand! If you “blow up” (your vehicle’s cockpit ejects) during a game, mark a “0” for that game.

Use pencil! You may want to use the grid again!

SCORING GRID

Write your PowerPoints score for each game in the space provided.
